

DÀ CŴHÎLE

Established 1992

Commissioned Gin

We would like to start by thanking you for approaching us and enquiring about commissioned gin. Here at Dà Mhile we can produce a custom gin tailored to your needs.

To help you on your journey please see below the recipe writing services we offer and then complete the attached 'Brief Form'.

Option 1. Dà Mhile recipe writing

Dà Mhile will write a recipe based upon your brief.

An initial sample batch will be produced for you to taste and make any suggested flavour alterations. Following this, a final sample will be produced.

Dà Mhile will own this recipe, but you will get exclusivity; meaning this recipe will only be used for your gin and no one else.

Cost. £3,000.00

Option 2. Dà Mhile recipe writing+

This option includes everything in option 1. With option 2 you will be tied into completing 5 commissioned batches of gin and your recipe will be yours at the end of this period. At this point, you can continue having your gin produced by Dà Mhile or have the ability to move production if desired.

Cost. £5,000.00

Option 3. Develop your own recipe at Dà Mhile

Come and stay with us on our organic farm and spend 3 days with our distiller developing your own gin recipe, including test distillations. This recipe will be yours once developed and you will gain valuable knowledge in distilling that will help you 'sell' your gin.

As with option 2, you will be tied into completing 5 commissioned batches of gin after which you can continue having your gin produced by Dà Mhile or have the ability to move production if desired.

Cost. £7,000.00

Option 4. Provide us with a recipe

If you already have a gin recipe and you just need us to transform it into delicious organic spirit for you, this is the option for you.

Cost. £1,000.000 for sample distillation and set-up.

Now that you have a gin recipe, you will need to decide what quantities you would like us to make for you.

We have small and affordable minimum order sizes, perfect for testing the water before increasing your volume. This is ideal if you are a smaller company that is unable to carry large quantities of stock taking up valuable space.

Our smallest runs are also a great option for special occasions like parties, weddings etc.

Indicative prices and batch sizes are below. Prices include alcohol duty and will be subject to VAT. The number of bottles produced can fluctuate +/- 10% from batch to batch. The numbers shown being an average.

Double Batch

Strength ABV	No. of Bottles	Price / Bottle	Price per Batch
37.5%	700	£17.25	£12,075.00
40%	660	£17.75	£11,715.00
42%	630	£18.25	£11,497.50

Full Batch

Strength ABV	No. of Bottles	Price / Bottle	Price per Batch
37.5%	350	£17.75	£6,212.50
40%	330	£18.25	£6,022.50
42%	315	£18.75	£5,906.25

Half Batch

Strength ABV	No. of Bottles	Price / Bottle	Price per Batch
37.5%	175	£18.25	£3,193.75
40%	165	£18.75	£3,093.75
42%	157	£19.25	£3,022.25

Quarter Batch

Strength ABV	No. of Bottles	Price / Bottle	Price per Batch
37.5%	87	£19.25	£1,674.75
40%	82	£19.75	£1,619.50
42%	78	£20.25	£1,579.50

Once you have chosen your production volumes you will need to decide how you would like it bottled. The prices indicated include the bottling costs at Dà Mhìle. However you will need to provide the bottles, labels & packaging. We can recommend reliable sources upon request.

Note:

Prices could increase a little if your recipe includes expensive botanicals such as saffron, vanilla etc.

Cask ageing and additional infusions will come at an extra charge.

Once your price is agreed it is fixed until the end of the financial year (31 March). The only price increases would be if the chancellor increases alcohol duty, VAT or if there is a substantial cost increase in acquiring certain ingredients.

All orders are dealt with ad-hoc and we aim to complete your batch within 6 weeks of confirmation of purchase order.

Before any production commences, you will be required to fill out the "brief" form, new customer account form and sign our commissioned spirits contract.
